

BON AIR // 85A - 2547

- *Extra strong PP*
- *Fully featured*
- *Ryanair cabin sizes*

HISTORY // INSPIRATION // DESIGN

Our first zipped Polyprop collection in AT.

Why PP?

- It is a semi-crystal material -> as a result a very strong material, avoiding any brittle breakage.
- Thanks to the injection moulding process we can:
 - Add thickness only where needed, resulting in a good volume/weight ratio.
 - Play with textures to create a different appealing look.
 - Have a more automated production, enabling a good value for money product.

CONSUMER TARGET

Customer looking for a modern look combined with a very strong material.

Value-seeker that likes a well-organised suitcase.

USP

- Great value for money
- Strong material
- TSA on all sizes
- Eye for detail, interior and exterior
- Excellent internal organisation

BENEFITS

STRENGTH

Brittle breakage prevented thanks to the use of PP.

STRONG ID

Strong ID using horizontal lines that differ in size and in texture. Combination of matt and shiny surfaces.

VOLUME/WEIGHT RATIO

Add thickness only where needed thanks to the injection moulding technique – 4.2 kg for large volume spinner.

FEATURED

- TSA lock on all models for easy travel to and from the US.
- Well-organised interior:
Bottom: cross ribbons and apron zipped pocket.
Top: divider pad with a mesh pocket + cross ribbons.
- Soft-touch carry handles.
- Details colour matching with exterior.

WARRANTY

Limited two year warranty
